Linden

Wellington Sonn. Feb 12 .65

My dear Sir,

I learn from my brother that you have been so good as to send me your great work on coins. I have never seen it, but know it by reputation, and am quite aware of the place it fills in Numismatics. It is extremely gratifying to me to have had it presented by you.

I trust you will find time to

read at least those parts of my
book which touch upon your
subjects of particular interest. I
say this with interested motives, being
very much alive to the importance
of being judged, whether favourably
or unfavourably, by the "profession."
A slight book of travels in Mexico
which I wrote as a first attempt
three years ago, was reviewed by
a considerable number of writers,

DSI

no one of whom had a fragment
of special knowledge of the subject.
The account and sketches of the
walled cloth of the Swiss lake-
dwellings which you kindly sent
me through Mr Christy, are
reproduced at page 188

Believe me Very Dear Sir

Very sincerely yours

E. B. Tylor

John Evans Esq

DSI

TYLOR, Edward

Sir

A. L. S. to Sir John Evans
dated Feb. 12, 1865 regarding
a review of his book
